

## Electronic Visit Verification (EVV) Telephony User Guide

AuthentiCare® by First Data is Palco's first choice for meeting the federal mandate for EVV. EVV is a system which electronically verifies that home or community-based service visits occur by capturing and documenting six points of data: type of service, individual receiving services, individual providing service, location of the service and the time the service begins and ends. This user guide will walk you through the functionality and features of the Interactive Voice Recognition (IVR) or Telephony version of EVV which can be used via the participants landline home phone device. For more information on EVV visit our website at [www.palcofirst.com](http://www.palcofirst.com)

## **Approving and Submitting Time**

---

All employers must be registered in Authenticare to review and approve time. During Enrollment, the Support Coordinator will issue the employer credentials that will be used to log in. At the end of every pay period, the employer must login to review the recorded EVV time and submit it to Palco before the published timesheet deadline. If this does not happen timely, payment cannot be issued. Please speak with your Support Coordinator if you have questions or concerns.

Edits and adjustments to shifts can be made in the Authenticare website by the employer. Please review the Authenticare Employer Manual for instructions.
