

Electronic Visit Verification (EVV) Telephony User Guide

AuthentiCare® by First Data is Palco's first choice for meeting the federal mandate for EVV. EVV is a system which electronically verifies that home or community-based service visits occur by capturing and documenting six points of data: type of service, individual receiving services, individual providing service, location of the service and the time the service begins and ends. This user guide will walk you through the functionality and features of the Interactive Voice Recognition (IVR) or Telephony version of EVV which can be used via the participant's landline home phone device or via a cellphone. For more information on EVV visit our website at www.palcofirst.com

Approving and Submitting Time

All employers and employees must be registered in Palco's online time portal called, **Connect**. During Enrollment, you will be issued credentials that you will use to log in. You will need to check your email for this information. At the end of every pay period, the worker must login to review the recorded EVV time and submit it to the employer. The employer will review and submit the final approval of the time in order for workers to be paid. Please review our **Connect for EVV User Guide** located on our website for instructions.
